

Micro Works® Computer Center

"Your Nationwide IT Solutions Partner!"

For over 25 years, corporate, government, healthcare and educational customers have relied on Micro Works to provide excellent product pricing and elite service. Our talented engineers have a wide range of expertise in all areas including:

- Onsite system installation, device imaging, cabling services, and network deployment - Wireless site assessments and heat mapping
- Disaster recovery and storage, innovative security and virtualization solutions - Amazon (AWS) & IBM Softlayer Cloud Partner
- Automated backup solutions and protection to keep your environment rock solid - never worry about data loss on servers, user laptops, or in the cloud again! Cutting-edge backup and replication solutions - Email archive and encryption, both cloud and on premise
- Microsoft Office 365, Lync, and Azure - Great pricing AND deployment services! Ask about our licensing "True-Up" services too
- Help desk services, telephone language translation, remote office support, network monitoring services, and nationwide onsite staff augmentation
- Office moves, conference room set-up & solutions, data center relocation services, equipment recycling and hard drive destruction
- Full spectrum contract manufacturing - customized packaging/labeling, specialized cases/enclosures, inventory and asset tracking services, client specific hardware/software staging, product warehousing, complete handling and delivery service to your end users

Our helpful staff and affordable services will help your company grow and thrive.

We are the partner to help you maximize your existing network's performance and plan your future, while maintaining your budget! Whatever your challenges are in today's rapidly changing environment, we can identify ways to streamline processes so you can do more with less. *Our goal is simple: to exceed our clients' expectations. We understand that our success is measured by your success!*

We provide IT solutions to streamline your business and save you money!

Let Micro Works work for you!

- Lock down your network with affordable, state of the art security solutions from **Cisco**. Manage wireless seamlessly with Cisco's Meraki "cloud" solutions. Engage the talented Micro Works engineering group to architect your **Cisco** switching and routing infrastructure from core to edge.
- Engage a Micro Works expert to guide you in reducing your data center footprint, achieving total network redundancy, helping you better manage your virtual infrastructure, and protecting your on premise and cloud applications. You'll greatly improve efficiency and minimize costs using **F5** Solutions. Defend against web attacks, boost performance, and exceed regulatory compliance standards with **F5 Application Security Manager** products. A single **F5** solution can solve multiple issues for our customers. Start planning for the future - contact us TODAY to learn more!
- Maximize performance and minimize costs with **Silver Peak** solutions. Optimize IP applications and never deal with a poor connection again! Build a WAN by leveraging broadband, augment or replace MPLS using internet connectivity - Unity Edge Connect is just \$199 per site/month!
- Benefit from Micro Works' **financial offerings and leasing programs**, which we offer for all hardware, software, cloud solutions AND services!
